Model AG3-350

300 - 400 MHz.

3 dBi. Gain

GROUND PLANE ANTENNA

Design Features: AG3-350 Ground Plane Antenna is rugged all weather model, uses high class chrome plated Brass and does not require any field tuning. The ground plane antenna when packed comes with ground radials removed from the antenna body for ease of packing and transportation.

Constructions: The all Brass ground plane antenna prevents formation of "Signal Cells", thereby eliminating intermodulation within the antenna. AG3-350 ground plane antenna is specially designed for Omni directional requirements, broadband for base station. Antenna termination and feed cable lie enclosed inside the mounting pipe for complete weather protection.
