Model AG3-850

700 - 990 MHz

3 dBi. Gain

## GROUND PLANE ANTENNA

**Design Features:** AG3-850 Ground Plane Antenna is rugged all weather model, uses high class chrome plated Brass and does not require any field tuning. The ground plane antenna when packed comes with ground radials removed from the antenna body for ease of packing and transportation.

**Constructions:** The all Brass ground plane antenna prevents formation of "Signal Cells", thereby eliminating intermodulation within the antenna. AG3-850 ground plane antenna is specially designed for Omni directional requirements, broadband for base station. Antenna termination and feed cable lie enclosed inside the mounting pipe for complete weather protection.

### **ELECTRICAL SPECIFICATIONS**

Frequency Range	700 - 990 MHz
Gain	3 dBi.
Bandwidth	50 MHz.
Input Impedance	50 Ohms.
Radiation Pattern	Omni Directional
Beamwidth -3dB.	72 Degrees (Vertical)
VSWR	1.5 : 1
RF Power Handling Capacity	500 Watts.
Input Termination	N-Female

### **MECHANICAL SPECIFICATIONS**

Material	All Brass
Mounting Hardware	Stainless Steel
Canopy	Nylon
Weight	1 Kg.
Wind Rating	200 Km/Hr.
Shipping Length	0.5 Meter
Support Pipe Material	Powder Coated MS
Radiating Material	Brass
Maximum Mount Pipe Diameter	52 mm (2 Inches)

### **ENVIRONMENTAL SPECIFICATIONS**

Operating Temperature	(-) 30 to +70 Degrees Celcius
Storage Temperature	(-) 40 to +80 Degrees Celcius
Humidity	0 to 95% RH
